

LILAC is an elegant hallway unit range in a timelessly modern design.

In a more lively or modest tone – the outstanding visual effect of the LILAC range is achieved on the basis of using colourful PUR lacquers which retain their outstanding characteristics as a result of their colourless **hülsta-EverGloss** seal and subsequent polishing procedures – combining a dreamy high-gloss surface finish with highly impressive durability when subjected to daily wear. The units are insensitive to pressure, scratching, the influence of chemicals or even the effects of sunlight. The surfaces of the LILAC units thus retain their glossy brilliance and are easy to care for. Their composition is so safe that this type of coating can even be used for children's toys, because the **hülsta-EverGloss** finish fulfils even the strict requirements of test norm EN 71-3.

- **Various single units** in 4 heights which can be combined at will
- **Clothes panels** for fitting on walls, with hat rack, clothes rod and bag hooks
- **Clothes mirrors** in two widths and five heights
- **Accessories:** Clothes hangers, protective mats, utensil basket, angled shelves
- **IMPORTANT NOTE!** The single units offered in this list are only to be viewed as suggestions and can only show an excerpt from the many possible arrangements. Furthermore, you can also choose different combinations from the individual ranges (see the "Ideas for living" price list).

List of versions System colours

| Model no. | Version |

| Model no. | Version |
|--|-----------------------------|
| 160 | High-gloss ruby-red lacquer |
| 164 | High-gloss saffron lacquer |
| Certain models which are available in colour touches are specially marked! | |

Important notes: Fittings for wall mounting are provided with nearly all the units which should be used for your own safety and for constructional reasons. The assembly materials supplied by hülsta (plugs, screws) are only suitable for fitting components on to concrete and/or solid walls. Ideally, one should inquire about the soundness of the walls with regard to their suitability for mounting units when orders are placed and be sure to check them later before mounting any units. If any surfaces are not suitable for mounting units (e.g. plastered or lighter wall materials), one should use another method better suited to the material on site.

- Max. load of wooden and glass shelves (up to 55 cm wide) and drawers: 25 kg
- Max. load of wooden and glass shelves (from 55 cm wide): 15 kg
- **hülsta-SoftFlow:** all drawers on hidden roller bearings with auto pull-in feature with brake as fully pull out units
- **hülsta-MagicClose:** all wooden hinge-doors with door hinge brake
- **hülsta-EverGloss:** pressure- and scratch-resistant and extremely robust surface seal
