

As simple as a set of building blocks. As beautiful as a picture.

Is a children's room just like any other? Of course not! It is the "I-am-not-tired" bedroom, the knight's castle, the "Not-these-jeans" dressing room and the museum for modelling clay sculptures. A child's room always has more than one

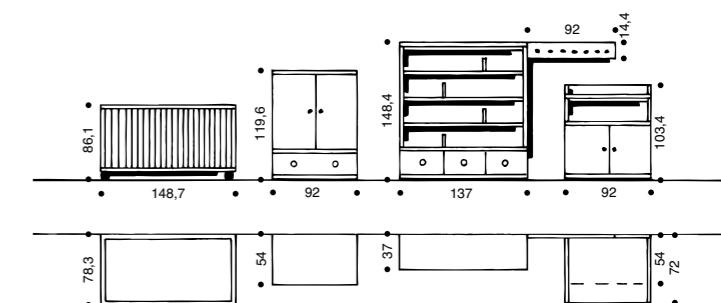

role, and CASALINO is designed in such a way, that the size of the room never limits its possibilities. CASALINO provides room for many happy years and the quality to last just as long.

Three is a fantastic age. So is 4, and 5, and 6.

Children grow quickly; CASALINO grows with them and lasts an entire childhood. The combination of smooth polar white surfaces with the warmth of the dark walnut provides

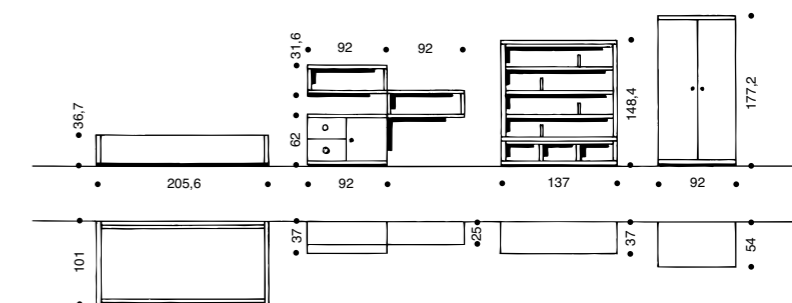

a stunning contrast of light and dark. CASALINO is the perfect choice for the most important people in the world, your children!

What I would like to be when I grow up? Why? In my room, I can be anything I want!

Children need an environment that stimulates them to play, experiment and explore. CASALINO is sturdy enough to withstand rough games and flexible enough to adapt to

changing tastes. It is functional without losing its charm and offers endless opportunities for your child to make it their own. Which is what your child will no doubt do!
