For all your senses.

LILAC will excite your imagination with its radiant yet deep surface effects – and it will invite you to do as you please. For the various single units come in seven high-gloss lacquer colours and four different heights. You can combine arrangements – or should we rather say compose them – with clothes unit panels, finely worked walnut units, mirrors and various other elements to suit your own preferences.

In your entrance hall today: a solo artist.

Any orchestra is only ever as good as its soloists. We have taken this to heart and created a number of most expressive solitary units. Thanks to their full-length plinth and cover shelves, they create a wonderful harmonious entity. Because an orchestra is only perfect when its soloists harmonise perfectly.

Version: high-gloss black lacquer, walnut

Version: white lacquer, black lacquered glass

Endless choices.

The wide choice of single units will deliver perfect solutions for any space. Carcase and front versions can be combined to suit your individual requirements: there is a choice of

white lacquer, structured beech and walnut. Set additional accents by combining relief-planed and smooth surfaces.

Conjure up your own entrée.

Just imagine you were asked to name as many wishes as you like and they were all fulfilled. XELO provides you with so much creative scope that it can meet the widest variety

of wishes and also adapt to the available space. But no matter what you eventually choose: the quality of the finish, the design and the practical features are always excellent.

A journey of a thousand miles begins with a single step.

The home starts in the hallway. Departure or arrival, farewell or welcome: private life and the wide world meet in the hallway. ENCADO II helps you to design a stylish and distinctive entrance to your home. Invitingly friendly, light and airy, functional and individual. Homesickness guaranteed!

With SPECTRUM you get to know your entrance hall from the creative side.

If you use our SPECTRUM range and a little imagination to the full, you will find you have more room than you think. Because it ensures that not a single niche is left unused with its five different unit heights and three different widths. And, of course, it provides the customary hülsta quality from top to bottom.

Intelligent storage.

ELEA is the perfect choice for difficult room layouts. Simply combine single units in 2 heights, wall-mounted and angular shelves or suspended units to suit your individual needs.

Adding hat racks, hanging rails, hooks, mirrors and any other useful accessories to the coat rack panel ensures multi-functional storage even when space is at a premium.

Enjoy a break in natural surroundings.

Experience frost, heat, rain, and even drought: simply take a closer look at the grain of your solid wooden LILIUM units and you will discover that every single piece has its own inimitable character. What they all have in common is that their simple elegance will make your entrance hall a naturally charming place to be. And show its owner to be a true lover of nature.
