What does Shakespeare have to do with your bedroom?

He wrote "What you will" and "As you like it". You will certainly be reminded of this, when you find out what MIOLETTO wardrobes have to offer. Walk-in corner and

combined sliding/hinged door wardrobes, functional pull-out units and different door widths within a unit.

Version: walnut, white lacquer

1 No witchcraft: MIOLETTO turns a useless corner into a comfortable walk-in wardrobe, offering unforeseen space and splendid tidiness.

2 The bed height is also linked to comfort: if you choose the higher version, you will not only effortlessly get out of bed but also gain additional useful storage space below the bed.

3 The lower bed height underlines MIOLETTO's elegant floating effect. The headboard side-extension and the storage shelf turn your bed into a dreamlike comfort island.

Cushion comfort.

in bed very comfortable. MIOLETTO offers high-quality cushions made from fine fabrics or leather in five colours, either matching the bed or adding fresh accents.
